ENLIGHTEN
DO
INDIA'S FIRST VR MUSIC FILM

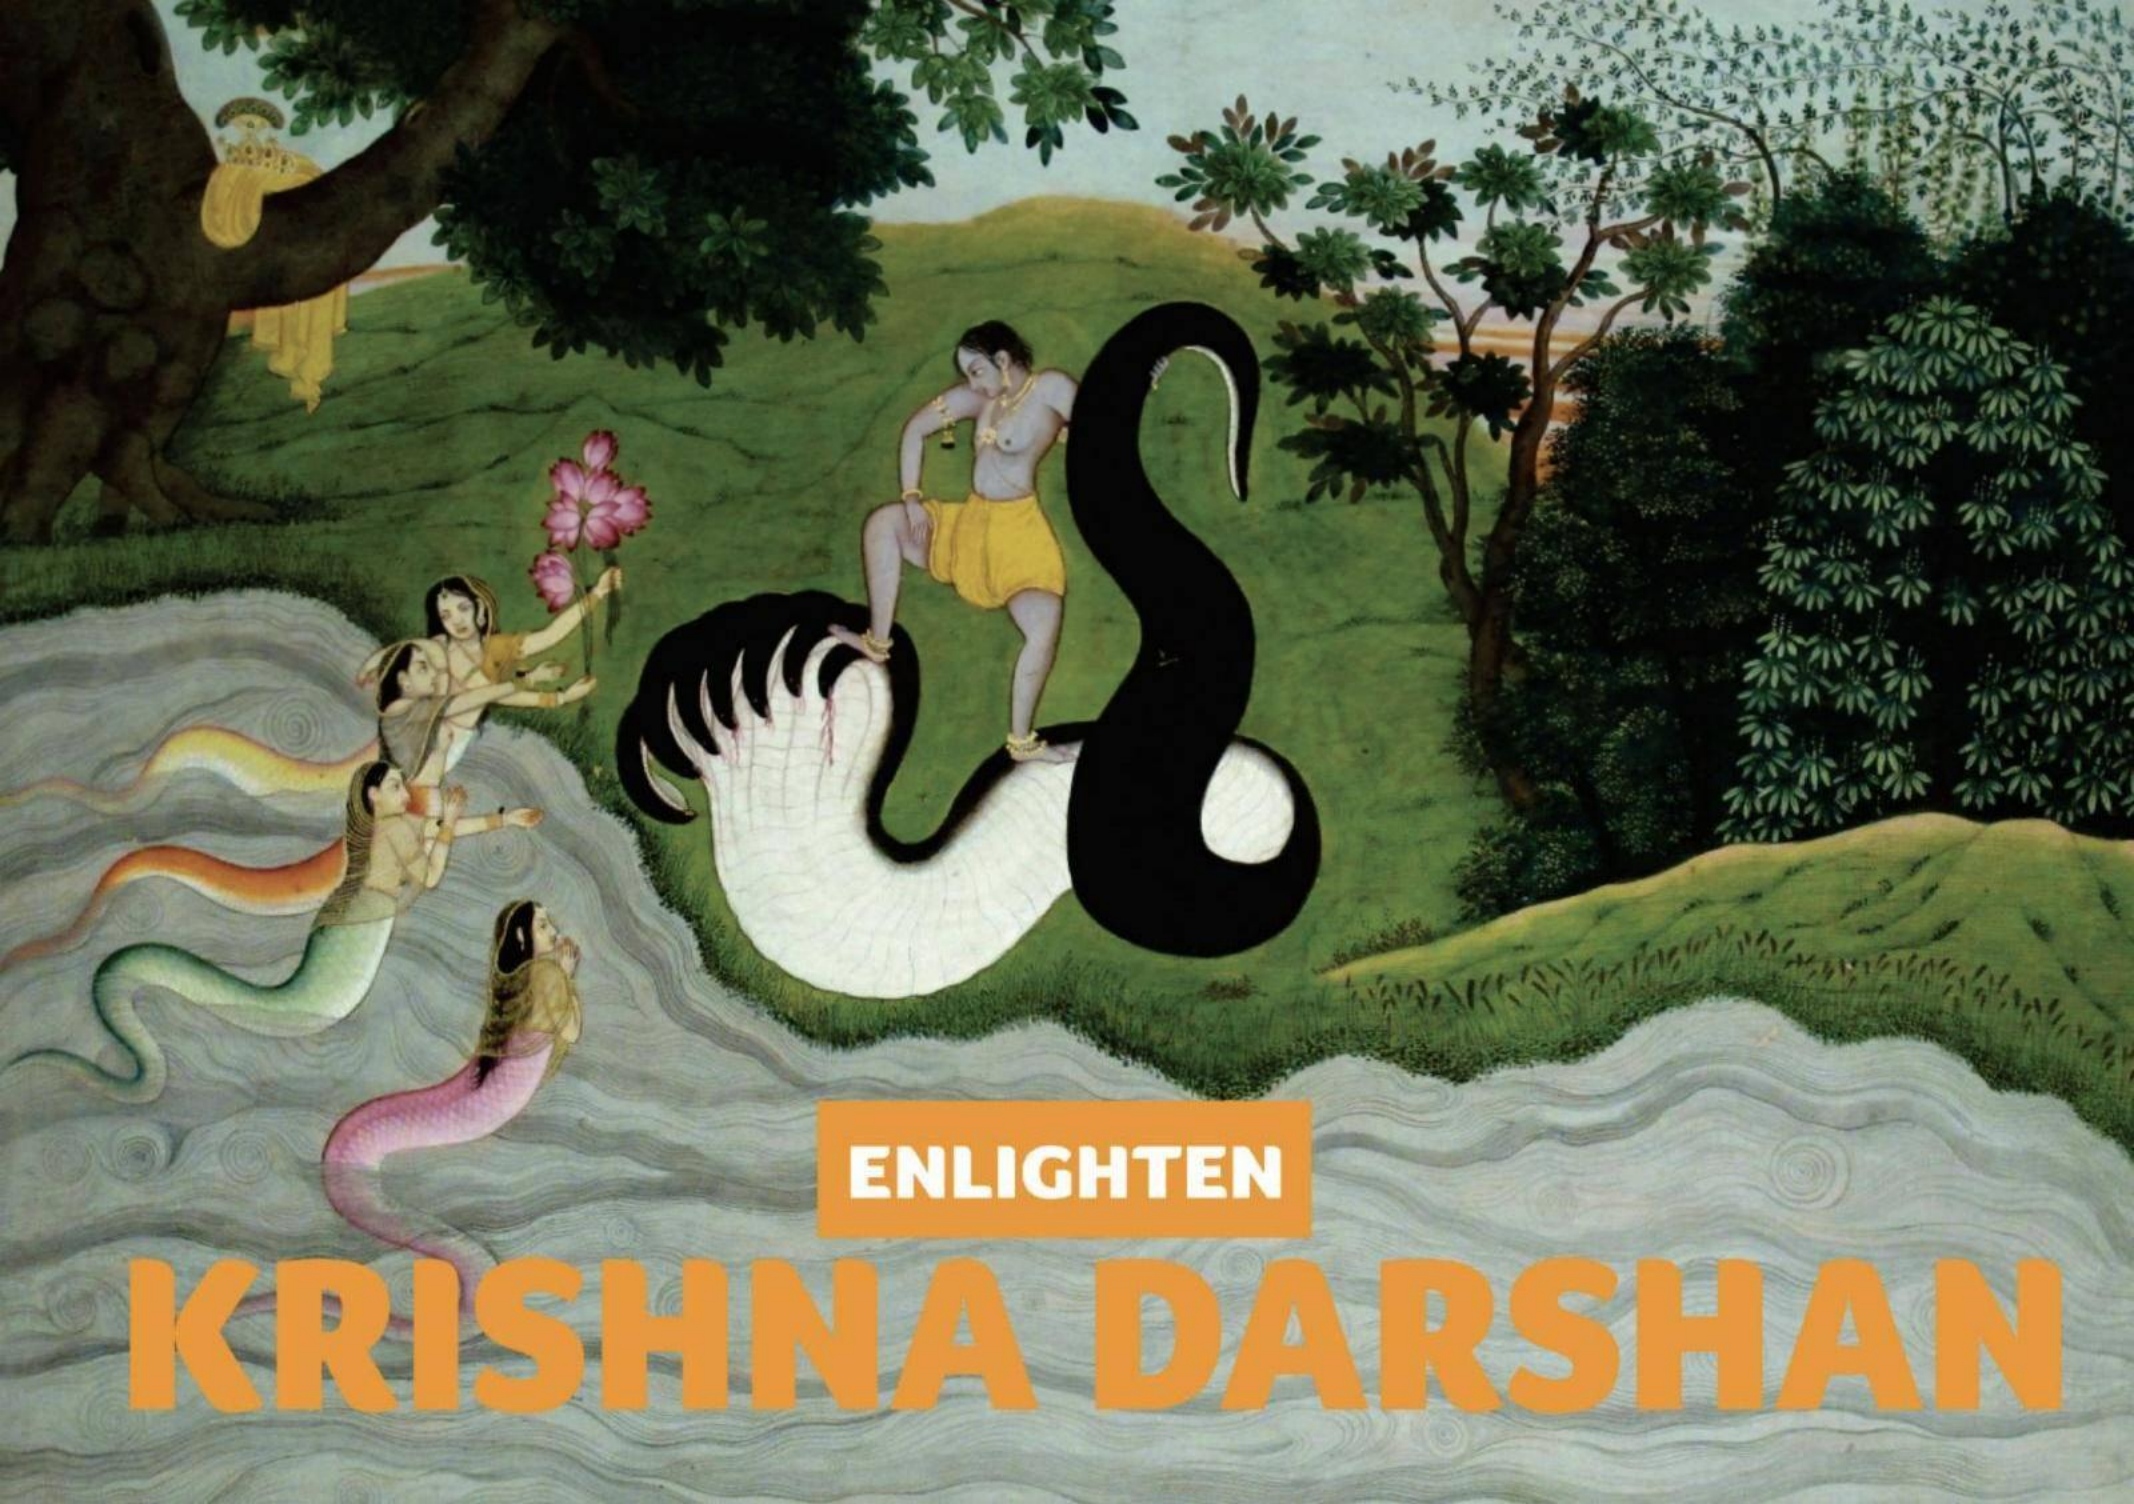

FIRST

India's first VR film 'The Flowering'
was created by Enlighten in March 2016.

After various test screenings from April to August, India's first ever public VR film showcase was held in Mumbai on the day of Ganesh Chaturthi, September 5 2016.

The Unnamed Guide is India's first VR film series, which is shot across various cities in India, encompasses mythical and factual stories as told by the local tour guides in their own voices.

'Do' - the music film was the opening attraction for India's first centre for virtual and created realities.

ENLIGHTEN

KRISHNA DARSHAN

CINEMA + GAMING

We create characters that are immersive, interactive as well as scalable.

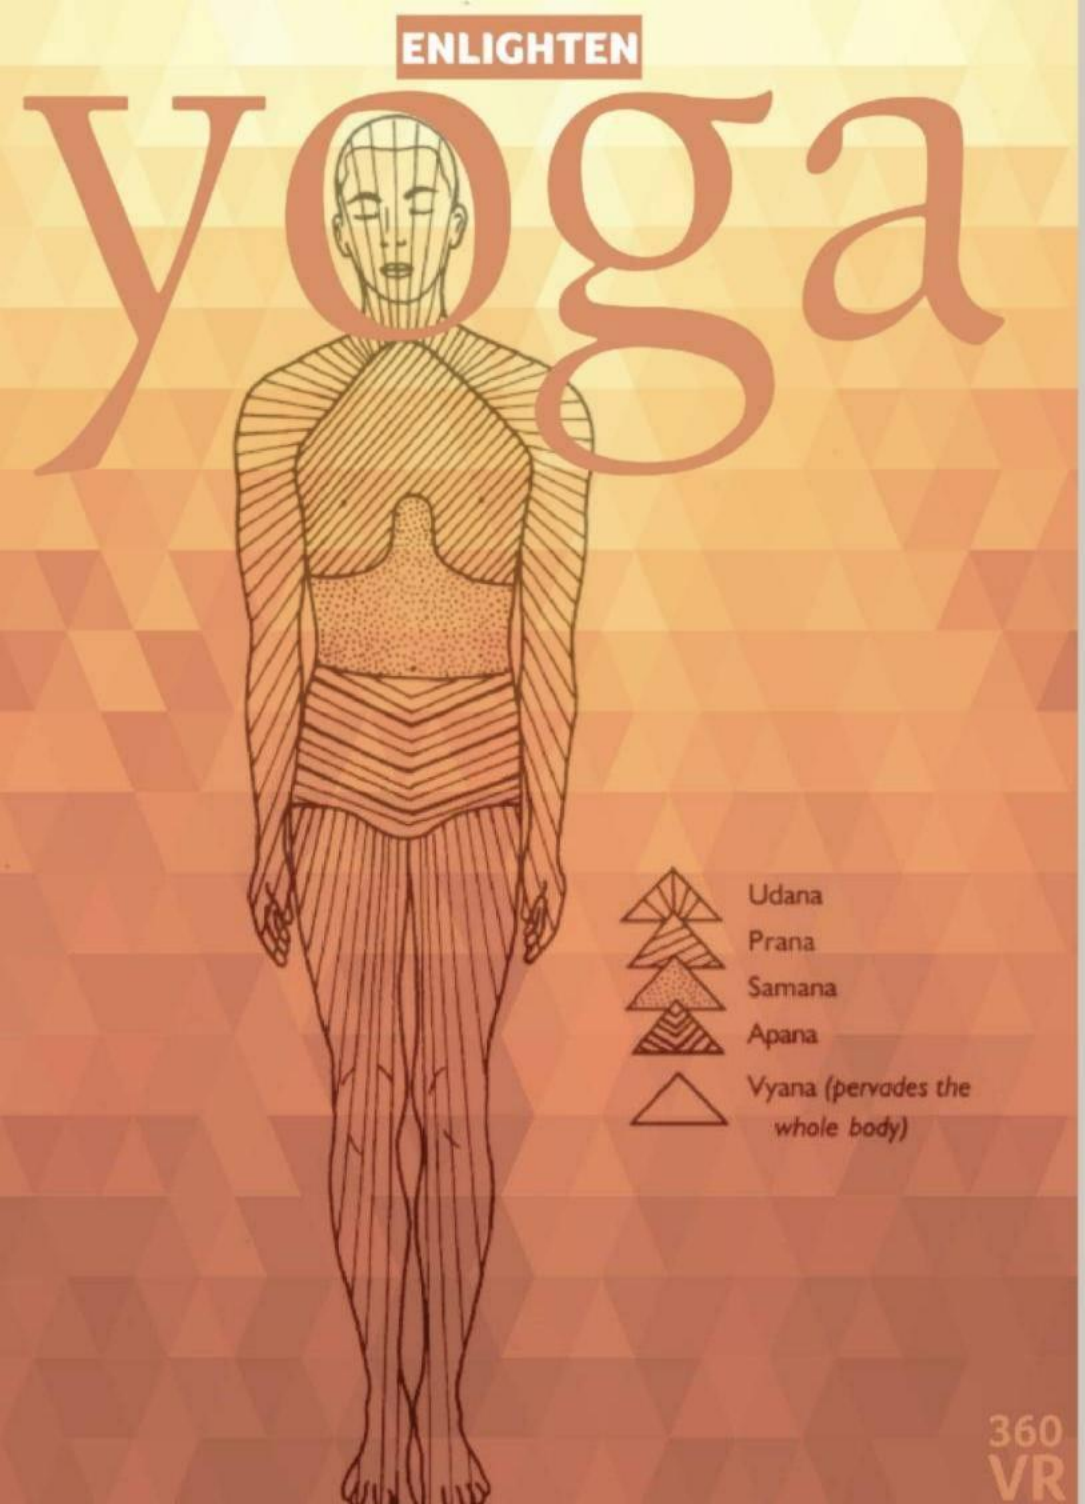

In Development:

Games like Dreamboy would also be filmed as fiction VR stories.

In the same manner, our immersive VR film Krishna Darshan would also have created interactive experiences.

Our projects like The Unnamed Guide, Star Party, Yoga and Sequence have an unparalleled scope for scalability.

ENLIGHTEN
STAR PARTY

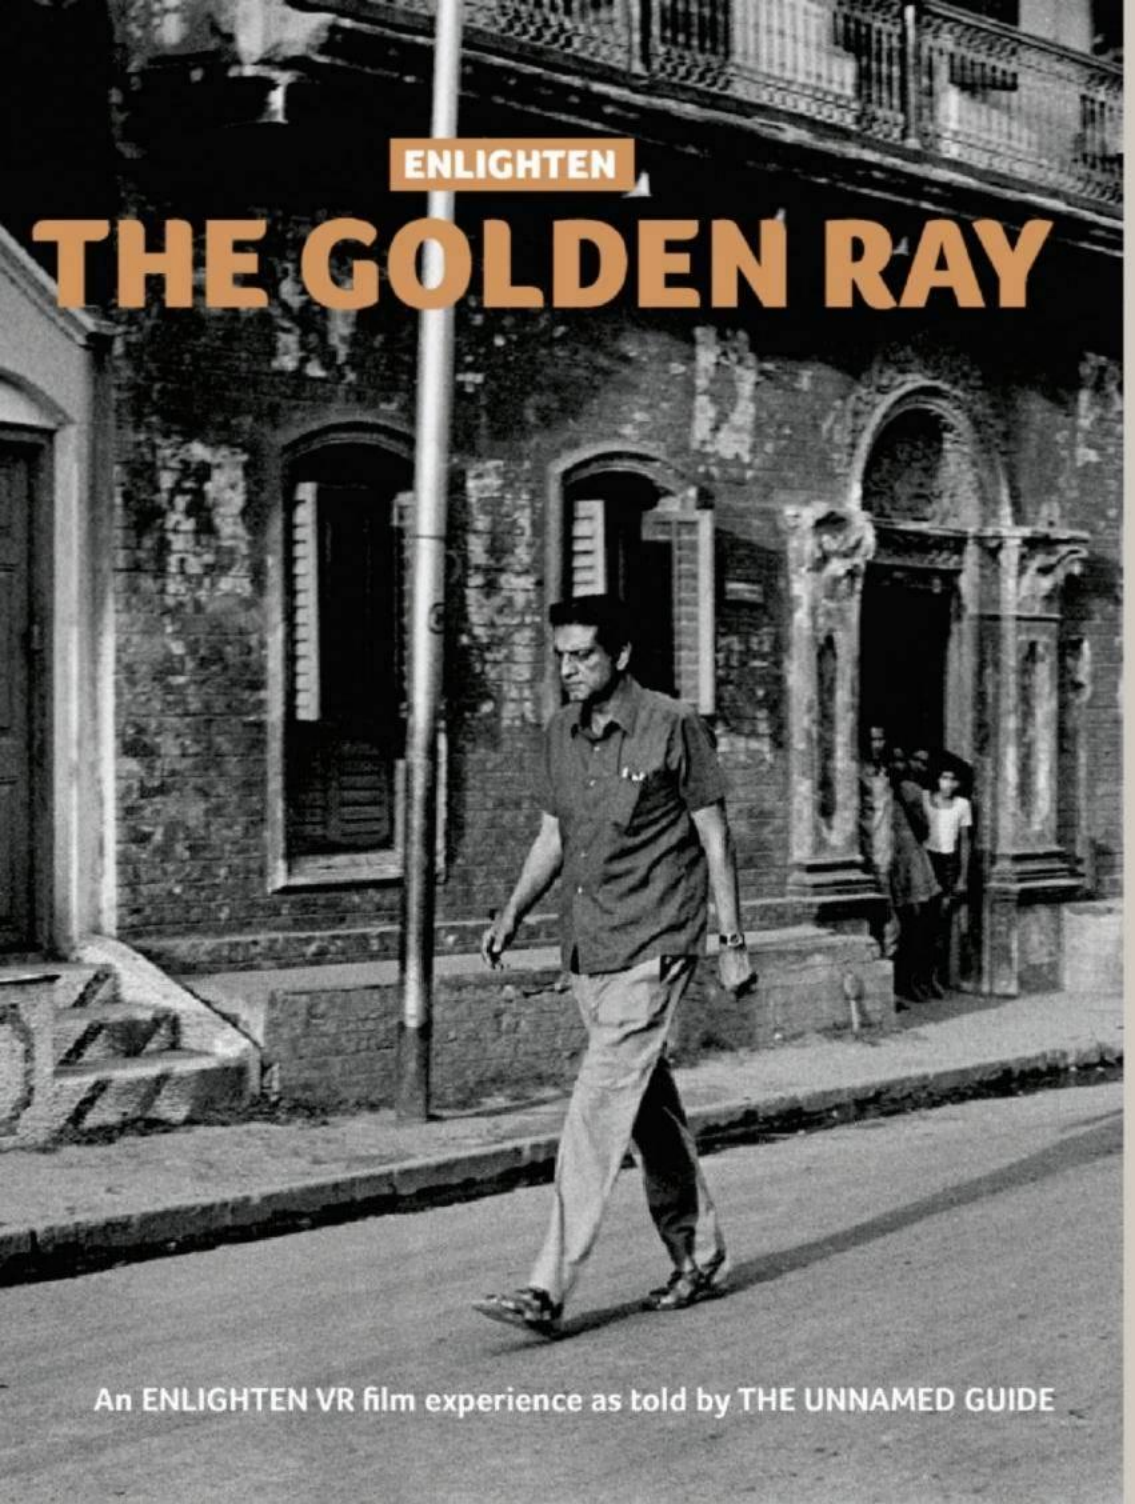

EXPERIENCE

Collaborating with various organisations to create the best experiences in the field of science, yoga, education, space research, housing, advertising, and entertainment.

ENLIGHTEN

THE UNNAMED GUIDE

STUDIO

Our work with Enlighten Studio includes creating realities right from its conception to its final delivery. This is a continous process.

Our current projects include:

Dreamboy (Dreams Come True)
Krishna Darshan (The Life of Krishna)
The Unnamed Guide (Mythical stories of Cities)
Yoga (Knowing Yourself)
Do (Music)
Sequence (The Story of DNA)
Star Party (Space Visualizations)

ENLIGHTEN

SEQUENCE

THE STORY OF DNA

APPS

The Enlighten apps suite includes:

Films
Music
Scientific Research
Yoga
Space
Artistic Visualizations
Games
Nature Documentaries
Education

Our Apps would be available across all major VR platforms

ENLIGHTEN
VIEW

PRODUCTS

Our products would include viewers and stimulators for created reality.

Viewers, lenses, fibre, cloth and other materials are constatnly being tested.

These products would be made available for all and some of the products would be used to create exclusive hi-end experiences for Enlighten works only.

In Progress
Enlighten Head Wear- A gentle head-mounted stimulator that guides user head movement based on informatiom about precise areas where impact visuals are placed by the developers.

ENLIGHTEN
SPACES

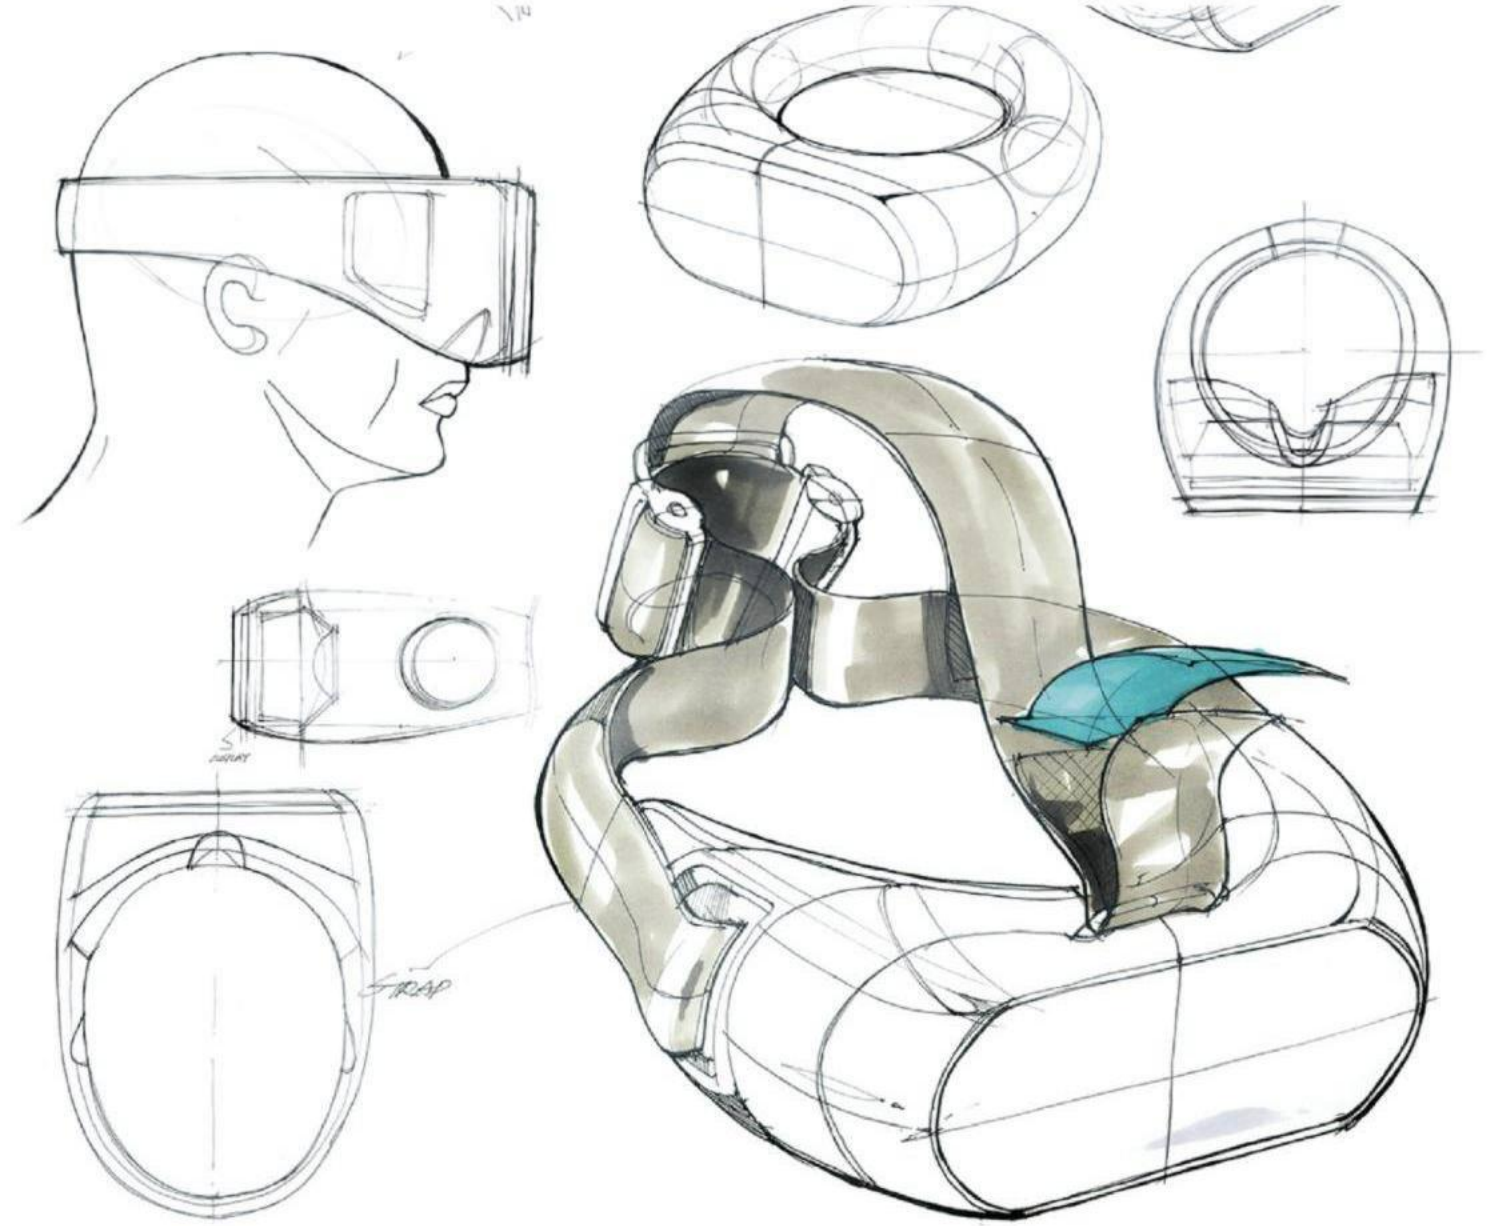

CENTRE

Enlighten Centres are spaces where experiences and knowledge of created realities are shared.

India's first centre for created realities opened on16th October 2016 in Mumbai.

The Bombay Art Society building, where our first centre is housed, was inaugrated by the Prime Minister of India.

ENLIGHTEN

Our mission is to create realities that are well balanced and has a positive impact on all.
